

Profile: Grant Warner

Personal:

My name is Grant James Warner, I am 30 years old and recently got engaged.

I am looking forward to getting married on the 28th of November.

My hobbies include watching all sports, listening to music & socialising with friends and colleagues.

My career to date:

Worked for Renault Trucks UK for 3 years.

Had a 6 month contract with Envirosolve on the logistic side.

Currently with Hino Trucks Midrand for the last two years in the sales department.

The experience I am gaining in this department is giving me an ideal grounding in the current operational challenges faced by vehicle operators in the field.

As part of my value added service to my customers is liaising with the technical department in resolving mechanical problem which are experienced in the operational environment.

I am privileged to work with knowledgeable colleagues who are helping me to bridge the gap between the sales and technical facets of a commercial vehicle.

The Future:

In the short term I am looking forward to getting married towards the end of this year.

I have accepted the challenge of managing my time in a disciplined way to meet my work, study and social commitments in a prioritised balanced

manor.

In the longer term I see the qualification I am currently studying towards at the University of Johannesburg (with grateful thanks to the Jack Webster Trust) coupled with the hands on industry experience giving me the opportunity to make a difference in the road transport industry.

I see myself as a future decision maker in the industry who will have an all round knowledge of the engineering and operational aspects of road transport.
