

## **Profile: Hugo Brynard**

### **Personal:**

My personal life is quite a busy one with two kids (Boy 3 years and daughter 7 months). My wife's name is Danielle and she works fulltime as a credit controller for a international removal company.

### **Career:**

As for my work, I run the workshop at the Unitrans Milnerton fuel and Chemical depot and my day to day work consists of improving the workshop process as well as increasing cost saving on maintenance. Challenges are mostly overcoming old trends and habits when changes are brought in to improve the current operation.

### **Hobbies:**

My hobby is cycling, both mountain biking and road cycling. I compete in most of the years cycling events and have just completed the Wines2whales ride that took place on the 24<sup>th</sup> April that stretched over 2 days and covered a total distance of 142km from Grabouw to Hermanus. My next Mountain Bike challenge is the "1 tonner" on the 16<sup>th</sup> of May: 168km, in 1 day.

### **The Future:**

Thank you once again for the opportunity to study through the Jack Webster Trust.

I believe that once I have completed my studies I will be in a better position to benefit not only my employer but the greater road transport industry.
